

The Wainwright Star

VOL. XXIV NUMBER 44 THE STAR, WAINWRIGHT, ALBERTA AUGUST 31st., 1932 Price \$2.50 Per Year in Advance

Archibald Defeated in Ninth Round By Phil Befus of Calgary

IRMA BOY PUTS UP PLUCKY BATTLE—PRELIMINARIES OF HIGH ORDER—BEST PROGRAM EVER PRESENTED

Fighting gamely all the way against a worthy foe, Curly Kid Archibald, of Irma, met a game defeat at the hands of Phil Befus, of Calgary, in the main bout of a pugilistic program staged at Wainwright, Tuesday night, before a goodly crowd of spectators who were kept on their toes by the many thrills presented.

Left hooks, rights, and trip-hammer punches, were on the menu in every round, and it is safe to say that this main bout was the best ever presented to the fans for many a day.

The first round Befus had a decided edge, likewise the second. The third was a draw. In the fourth stanza the "Kid" brought joy to the fans by nabbing it. But this was reversed in the fifth, when Befus stepped on the gas. Not to be outdone, the "Kid" plucked up all he had, fought the best he knew and grabbed the sixth. He came out of this with enough in reserve to hold Befus in the seventh to a draw. At this stage, the Calgary citizen figured he'd better uncork some three stars and what-not, and got a big edge in the eighth, and in the ninth, Referee Thumel stopped the combat and gave the decision to Befus.

"I never refereed a better fight, it was a good, clean, hard-hitting affair, and a credit to both boys," declared the Viking Mayor.

Preliminaries.

The preliminaries were more than

PEACE SETTLES OVER FARM AREA

FARMERS' WAR FOR HIGHER PRICES BELIEVED "FADING OUT"

COUNCIL BLUFFS, Iowa, Aug. 27.—Peace settled on the Council Bluffs and Sioux City sectors of the farmers' war for higher prices today.

Picketing continued on three of the four main highways leading into Council Bluffs, Sheriff P. A. Linnson reported, but was without violence of any kind. He expressed the opinion the strike movement was "fading out."

A settlement of the milk price war at Sioux City last night served to relieve the tension of the situation. Immediately afterward the producers agreed to lift their attempted blockade of the city.

In Nebraska, pickets were maintained at Blair on the principal roads leading into Omaha from the northeast part of the state. They permitted trucks to go through yesterday with a warning that "this is the last time."

South Dakota holiday supporters agreed to start a non-selling campaign September 5, if other state organizations agreed.

U.G.G. ANNOUNCE DIVIDEND PAYMENT

United Grain Growers Limited have announced the payment of a dividend at the rate of five per cent. on the paid up capital stock of the company out of earnings for the fiscal year ending July 31st, 1932. In making the announcement during the course of a directors' meeting held at Calgary, R. S. Law, president of the company stated that the earnings of the company had been sufficient to pay bond interest, to provide full depreciation, and after payment of the dividend to permit of a satisfactory addition to the surplus accounts of the company.

Dividend cheques will be mailed from the office of the company on September 1st, to shareholders of record at July 31st, 1932.

COMPLETE STOPPAGE IN SOME DISTRICTS

BRITAIN THREATENED WITH GREATEST INDUSTRIAL DISRUPTURE SINCE 1926

MANCHESTER, Eng., Aug. 27.—At noon today factory whistles throughout Lancashire called 200,000 cotton workers out on a strike which threatens to become the greatest industrial dispute Great Britain has experienced since the nationwide general strike of 1926.

How far the strike call will be obeyed by the weavers, who are the first affected, will not be known until Monday morning, when the mills re-open their doors. Only a small response to the call is expected in some districts because of temporary working agreements already operative. In other districts the stoppage will be complete.

A tragic aspect of the struggle is that the negotiations for peace were wrecked, not on the main issue of wages, but the reinstatement of about 3,000 workers already on strike.

In their visit to the National Research Laboratories which were formally opened recently by His Excellency the Governor General, the delegates to the Imperial Economic Conference, many of whom arranged to attend the function, were shown through the building and given a chance to study many interesting models used by the Research Council in their tests.

Canada Records Sudden Decline In Retail Prices

OTTAWA, Aug. 12.—The "high cost of living" has been superseded by the "low cost of living," judging by the present retail prices of food and clothing published by the Dominion Bureau of Statistics. Both commodities have dropped to less than half of what they were a few years ago. Food, which stood at 100 in 1926, fell to 98.6 in 1930, to 77.3 in 1931, and in July, 1932, the index number was 61.4. The highest costs were in 1921, when the index number was 141.1, or considerably more than twice what it is today.

Clothing was highest in 1920, at 153.2, while today it is at 71.9. Rent shows the least effect of world conditions. In 1929, when the depression began, the index number was 103.3, yet rentals rose and in 1930 stood at 105.9, which was the peak in the last 20 years. Then came the downward swing, and last May, the big renting month, there was a pronounced fall to 93.9. The total index of "living" expenses has dropped from 99 in 1929 to 96.8 last month.—Christian Science Monitor.

HOG RUN KEEPING FAR AHEAD OF LAST YEAR

Sales at the nine principal Canadian stock yards for the week of Aug. 11 show a decrease in all stock as compared with the previous week with the exception of hogs, which as usual, were higher. Comparative sales at the yards, with the previous week, as well as the 32 weeks of this year and last are:

| | Week | Week | 32 wk | 32 wk |
|--------|--------|--------|---------|---------|
| | 1932 | 1931 | 1932 | 1931 |
| Cattle | 14,579 | 14,732 | 319,506 | 350,461 |
| Calves | 4,629 | 7,113 | 196,013 | 195,576 |
| Hogs | 19,859 | 19,577 | 801,656 | 600,235 |
| Sheep | 11,748 | 14,940 | 169,180 | 174,765 |

Government figures for all marketings, at yards, direct shipments, and through billings show for the week of August 11th, the Canadian total was 54,921 and a total for the year of 547,700 over the previous year.

Sales at Alberta yards, packing plants, and through billings from Alberta points for the week were 14,499, which brought the total for this year up to 548,499, compared to 374,464 in the 32 weeks of last year.

CAN. NATIONAL RLWYS. WEEKLY NEWS ITEMS

Dr. Arthur H. Compton, noted physicist, who since early last spring has been chasing cosmic rays in the four corners and high places of the world, left on the Canadian National last week for Churchill, enroute to Chesterfield Inlet on the northwest coast of Hudson's Bay, to continue his researches.

Special holiday fares for the Labor Day week-end will be the same as those given by the railway for the other long week-ends of summer. Return tickets, good between all stations in Canada, will be sold at the rate of one and one-quarter times the first class one-way fare, the going portion good from noon Friday, Sept. 2, to noon Monday, Sept. 5 and the return portion good until midnight, Sept. 6. The time of the going portions of tickets has been extended to noon Monday this year, instead of to Sunday night, as in previous years.

Hon. Herbert H. Marler, Canadian minister to Japan, accompanied by Mrs. Marler, who are now at Ottawa, passed through western Canada a week ago over Canadian National Railways from Jasper, where they spent several days at Jasper Park Lodge. Mr. Marler expressed himself as particularly impressed with Canada's chances of increasing her trade with Japan, but pointed out the necessity of Canadian industry having trade representatives on the ground to stimulate business. He pointed out that China offered a huge market for Canadian paper and the Orient generally was a good market for Canada's lumber. Canada's great opportunity, however, lies in the potential Oriental market for Canadian wheat, he declared.

NEW WHEAT SAID TO RESIST RUSSIAN FLY

ITHACA, N.Y., Aug. 27.—A new kind of "cross-bred" wheat that has inherited resistance to the Hessian fly, a wheat pest, was described by J. W. Parker and R. H. Painter, of the Kansas agricultural experiment station, today, before the International Conference of Genetics.

The new wheat had less than one per cent infestation by the fly as compared with 41 to 48 per cent for a type susceptible to the fly. They found the quality of resistance to the fly can be combined with other desirable qualities such as bread-making quality, stiff straw and winter hardiness.

B.C. BEER PARLORS TO PAY MORE FOR BARREL

VICTORIA, Aug. 22.—Effective today, British Columbia beer parlors will pay one dollar more a barrel for draught beer, it was announced by W. F. Kennedy, liquor board commissioner, today.

There will be no increase in the price of bottled beer, it was stated.

With beer parlors making 110 per cent on draught beer and the government only 25 per cent, Mr. Kennedy said the action was taken for more equitable distribution of profit and would not result in the increase being passed on to the public either by price or in the way of smaller quantities being served.

SOVIET GOV'T CUTS FOOD SUPPLY OF FOREIGN EXPERTS

MOSCOW, Aug. 15.—(A.P.)—Food rations allotted to foreign specialists stationed here in the employ of the Soviet government are cut in two by a new order to the store in which they buy their supplies.

A general shortage of foodstuffs has been felt by the natives for some time but hitherto has not affected foreigners in the government employ. The new reduction, while it cuts the amount of food available to foreigners, leaves them fairly well supplied with basic staples, except butter, and still much better off than the average Russian citizen. Prices remain unchanged.

Lloyd George Says Ottawa Parley Not a Brilliant Success

ENOUGH HAPPENED TO MAKE BRITAIN HENCEFORTH A FOOD-TAXING COUNTRY

By DAVID LLOYD GEORGE
Former Prime Minister of Great Britain

LONDON, Aug. 27.—An agreement of a kind has been reached at the Ottawa Empire Conference. As at Lausanne, all its most important provisions are subjective and conjunctural. Their value to all and any kind of

the parties depends upon subsequent interpretation and action. All the same, enough has happened to make Great Britain henceforth a food taxing country.

Wheat, meat, dairy produce, and fruit will be taxed and restricted and the price of these commodities to the British consumer will be artificially raised.

The Ottawa Conference is remarkable in that it is the first occasion in which a number of independent nations with high tariffs have come together with the view of adjusting their respective tariffs to the promotion of mutual trade.

Prospects of Greater Business With England Acclaimed by Industry

COMMENTS FROM ALL PARTS OF EMPIRE ON ACHIEVEMENT OF CONFERENCE

OTTAWA, Aug. 22.—With high hopes and gratification, Canadian manufacturers and agriculturists comment on the Imperial Conference which concluded Saturday. Prospects of increased trade with the United Kingdom as the result of preferences granted have been received with acclaim.

Here are typical comments:

Hon. O. P. Groucher, Minister of Agriculture for Nova Scotia: "The government of Nova Scotia is highly gratified at the results obtained at Ottawa. I believe the agreements will be of benefit to numerous Nova Scotia industries."

Rufus Dickie, president of the Canadian Lumbermen's Association: "It ought to mean increased business for the trade. We must wait and see how it will work out."

W. H. Dunn, manager, Borden's Farm Products Company: "The dairy industry in Canada stands to benefit greatly from any marked preferences extended it in the United Kingdom in regard to condensed and evaporated milk."

the outcome. This was the opinion today of a leading fisheries official who expressed considerable satisfaction in the agreement.

"If the preference is an exclusive one, it would certainly be a fatal check to the Canadian honey industry," declared W. A. Weir of the Ontario Honey Producers Co-operative in commenting today on reports that the 10 per cent preference on honey mentioned in the Australian and New Zealand treaties at the Economic Conference would not apply to Canadian honey.

See Alberta Benefits

Alberta will benefit tremendously from the agreements. Farmers in the province will take courage. Alberta business men will have more optimistic outlook. Thus D. M. Duggan, M.L.A. and leader of the Alberta Conservative Party, sums up the results of the conference "Much has been accomplished. There is still much to do, but with the successful conclusion of this conference, the foundations have been laid for greater Empire benefits to be derived through closer Empire relationships, in the future," declared Mr. Duggan.

Aids Refining Industry

G. R. Laycock, secretary of the Manitoba Chamber of Mines: "The duty on foreign copper of two pence a pound will certainly help the refining industry in Canada."

C. H. G. Short, honorary president of the Canadian Millers Association: "United Kingdom preference for Canadian wheat will probably hoist world wheat prices, while free entry of Canadian flour should prove a great benefit to Canadian wheat interests."

Fishers Interests Pleased

While the Canada-United Kingdom agreement did not go quite as far as the fishery interests would have wished, it should prove of great assistance to the canned salmon industry which had based great hopes on

The new Welland Canal, which was officially opened early this month and broadened through the trans-shipment lines of the Canadian National Railways, is the first link in the Great Lakes-St. Lawrence deep water way, and is the fourth canal to be built in the last one hundred years connecting Lakes Erie and Ontario.

GROWING CONFIDENCE IN STOCK EXCHANGE

WELCOME SIGNS OF BUSINESS IMPROVEMENT IN U.S. AFFECT OLD COUNTRY

LONDON, Aug. 27.—Though the week-end finds Britain entangled in the greatest industrial conflict since the coal lockout of 1926, here people are enjoying the waning days of their August holidays and refuse to be downcast.

They realize fully the seriousness of adding 200,000 workers to the unemployed's tremendous total, but they believe at the same time that "something will be done about it." So they leave the question to the cabinet which is in session today, and hope for the best.

In the meantime, the arrival home of the Empire conference delegates with reassuring statements on Ottawa achievements and hints from "Jimmy" Thomas that he may yet be able to bring De Valera to see reason in the dispute over the Irish land annuities have made for brighter politics.

Commodity Prices Improve

The constantly growing confidence on the stock exchange and the improvement in commodity prices have pleased bankers and financiers. And the start of the hectic joys of soccer football though summer still bakes the playing grounds, instills good humor into millions of sport fans.

Every one, in short, feels without exactly knowing why that "things might be much worse, you know."

Welcome signs of business improvement in the United States have also had a good effect here, and a resumed flow of funds from Europe to New York is noted as another proof that the tide of world confidence, so long on the ebb, has begun to flow again.

In short, whether it is due to the holiday influences or just the natural equability of temperament, John Bull has already laid in his winter stock of undemonstrative cheerfulness.

CANADA REMEMBERS GALLANT WAR DEAD

BOOK OF REMEMBRANCE IN PEACE TOWER TO HAVE 68,000 NAMES

OTTAWA, Canada.—In the heart of the Peace Tower which arises over the entrance to the Canadian Parliament Buildings is a beautiful Memorial Chamber where, centre the nation's memories of her sacrifices in the Great War. In the Chamber is a splendid altar, and on the altar a vacant casket. The casket is to hold a Book of Remembrance on which will be inscribed the names of Canada's war dead, and the Government now has authorized preparation of this book. The task will occupy at least two years, it is estimated.

About 68,000 names will be inscribed in the book, written by hand on fine calfskin vellum and bound in full purple levant Morocco leather on oak boards clamped in gold and having gold mountings. The book will weigh about 125 pounds, will measure 22 by 20 inches, and will contain 450 leaves or 900 pages.

The book will contain the names of all members of the Canadian forces, and all Canadians in other Empire armies, who lost their lives from war causes between August 4, 1914, and April 30, 1922. Each entry will consist of surname, Christian name, rank, decorations, unit and the arrangement will be alphabetical by years of death. There is to be a page without names dedicated to Canadians who have died, or may die, from war causes subsequent to April 30, 1922, and another dedicated to Canadians who died while serving with allied armies.

The plan of this Book of Remembrance is almost unique, in that it is national in scope. The only other of the kind, so far as is recorded here, is the Scottish War Memorial at Edinburgh.

BRITISH PAPERS SAY J. MOLLISON TO BE KNIGHTED

LONDON, Aug. 22.—British newspapers predicted today that James A. Mollison, first man to span the North Atlantic westward alone, will be knighted when he returns to London.

The Express said the little Scotsman will ask his bride, Amy Johnson, to sign an agreement whereby they both would abstain from stunt flights and other hazardous ventures.

KULAK WOMAN WILL DIE FOR STEALING

SAMARA, U.S.S.R., Aug. 22.—A Kulak woman, named Gribanova, today became the first of her sex to receive the death penalty under a new decree classifying as capital offences thefts from collective farms.

The woman was sentenced to be shot after she had been convicted of stealing grain.

CANCER CALLED A HEREDITY ILL

ITHACA, N.Y., Aug. 27.—Madge Macklin, London, Ont., today told the sixth international congress of genetics meeting at Cornell University that cancerous diseases are shown by statistical study to be hereditary.

Medical men, Dr. Macklin said, have recognized for some time that cancer was hereditary in some animals but were disinclined to believe the same condition applied in human beings.

Statistical study, she held, showed convincingly that the same types of cancer sometimes occur in members of a single family in a manner which can not be attributed to chance.

The Alberta Pacific Grain Company Ltd.

COMMENCING business in the North-West Territories in 1901—four years prior to the formation of the Province of Alberta—The Alberta Pacific Grain Company, and predecessor Companies, carries in its records a long line of service to the farmers of Alberta.

ALBERTA Grain Company, Limited, under the able management of John I. McFarland, commenced business in 1901. Total production of wheat in Western Canada in that year had reached less than 65,000,000 bushels. Under Mr. McFarland's policy of fair dealing with all farmers, the growth of his Company kept pace with increasing wheat production in the West. In 1912 Alberta Pacific Grain Company, Limited, was brought into being under guidance of Mr. McFarland, and consisted of an amalgamation of Alberta Grain Company and Alberta Pacific Elevator Company, Limited.

THE "A.P." organization continued to grow. Its elevators followed the railway construction crews into the newly cultivated areas of Alberta and extended its operations into Saskatchewan and Manitoba.

WITH the completion of the building of the Panama Canal the "A.P." became a pioneer in the movement of grain to import markets through the Western route. Terminal elevators, having a capacity of 6,350,000 bushels have been acquired by the Company at the Port of Vancouver.

THE "A.P." system has passed through the financial stress of 1907-08; the war and its aftermath; boom periods and the business upheaval of the past three years—a period of years, many of which have been obscure and filled with business uncertainties. In all its three decades of dealings with thousands of farmers and the handling of hundreds of millions of bushels of grain, the Company has never failed in an obligation to any client. Among its customers today are pioneers of Alberta who drew the first bushel of grain they produced in the Province to an "A.P." elevator.

FAIR-DEALING with its customers, coupled with competent office and field staffs; efficient physical grain handling equipment and desire and ability to return to the grower the most that can be obtained for his grain, has brought the "A.P." system from its humble beginning in 1901 to its present position in the grain trade of Canada.

THE policies of the "A.P." today are and will continue to be, those of the founder of the "A.P." system.

Water-softening salts suitable for use in the bath may be made by intimately mixing 2 lbs. of baking soda, 1½ lbs. of starch or rice flour and

1½ lbs. of tartaric acid. If desired, a perfume may be added. A few tablespoonfuls in the bath will increase the lathering ability.

Canoe Trips in Canada Lakes and Rivers Provide Numerous Attractions

Opportunities for an Enjoyable Vacation Almost Unlimited

kind of trip to be made, whether one requiring much effort and experience, or one quite free from rapids and portages, the canoeist has only to select his route.

Easy of Access

Although railways and the automobile have provided a means of rapid transport, there are countless places in the quiet of the forest, out of reach of either. It is such places, approachable only by canoe, that invite the adventurer to partake of the wonders of nature. The railways and the development of good roads have however made the majority of canoe routes in Canada easily accessible, and one need not travel far from the majority of Canadian cities before reaching the embarkment point of an enjoyable trip.

Forest Beauty

In certain parts one may follow the streams for a long summer outing and never see a village or dwelling, yet civilization lies so close that return is easily possible. Waterfalls, rapids, large and small, lakes of singular beauty hidden deep in the forest, and islands covered with pine and spruce trees are among the interesting features encountered en route. In some places one may travel hundreds of miles without meeting obstacles of any kind.

There is a remarkable contrast between the conventionality of modern life and the full naturalness of life in the great forest, where one may relax, amid the beauty of natural surroundings. A strange appeal of imagination comes to one while following the routes of the historic explorers and contentment prevails

amid the constant change of beautiful scenery.

Fish and Game in Abundance

Canadian lakes and rivers are renowned for the variety and abundance of their fish. Brook and lake trout are numerous, the latter often weighing from fifteen to thirty pounds while other species of fish are plentiful. Eastern Canada is well provided with waterways, well suited to travel by canoe. Canal systems, rivers large and small, rapids, falls, lakes, stillwaters and all the requirements for an enjoyable canoe trip, await the devotee of the paddle. Whether it be a cruise through a well settled region, or an adventurous journey through the wilderness, the canoeist will find an almost unlimited number of lakes and streams.

The waterways of western Canada, in days gone by, assisted materially in unveiling the mystery of the great country between Lake Superior and the Pacific Ocean. Radiating from Lake Winnipeg, are routes of romantic interest. Nestling among the mountains of the coast are many beautiful lakes, also streams that wind through the hills, where sport for the angler and hunter may be found.

Free Information

The National Development Bureau of the Department of the Interior at Ottawa, has prepared a series of four booklets entitled "Canoe Trips," copies of which may be had by our readers, free of charge. The series covers the Maritime Provinces, Quebec, Ontario and Western Canada. Further detailed information is available to those who require specific data on any particular trip.

VALE MUNICIPAL COUNCIL HOLDS REGULAR MONTHLY SESSION

A regular meeting of the Council of the Municipal District of Vale No. 892 held in the Municipal office on Saturday, August 20th, 1932, commencing at 8.15 p.m. All members of the Council being in attendance, with Reeve E. B. Wahlstrom presiding.

Moved by Coun. Jackson—That minutes of the last regular meeting be adopted as read.—Carried.

Moved by Coun. Jackson—That the correspondence concerning the McPeak relief case be tabled until next meeting.—Carried.

Moved by Coun. Brown—That the letter from the Department in connection with L. E. Fogue's complaint concerning his 1929 assessment be ordered filed.—Carried.

Moved by Coun. Ker—That a cheque for the sum of \$31.03 be issued in favor of the Debt Adjustment Board in compromise of the seed lien against the S.E. 21-41-5 with.—Carried.

Moved by Coun. Castle—That all current taxes levied against the N.W. 20-41-5 (S.S.B. lands), be ordered cancelled.—Carried.

Moved by Coun. Wahlstrom—That notice of final cancellations of Seed Grain Liens against the S.E. 10-41-5 and N.E. 20-43-5, amounting to the sum of \$441.33 be filed.—Carried.

Moved by Coun. Jackson—That letter from the Secretary-Treasurer of the village of Edgerton soliciting a grant towards the upkeep of the Edgerton Cemetery, be filed and that the Secretary advise him of the reasons of the Council's inability to contribute toward same.—Carried.

Moved by Coun. Brown—That notice of the approval of the Department of a direct relief grant of \$12.00 per month to N. F. Frost of Heath, be filed.—Carried.

Moved by Coun. Jackson—That the Secretary again take up the matter of the P. T. Haywood petition for road, with the Municipal District of Gilt Edge No. 422, advising them that the matter of the establishment of an east and west road, to which Vale M.D. would be in a position to link up with, pertains exclusively to their district.—Carried.

Moved by Coun. Wahlstrom—That the Secretary advise holders of all lands to which the District has the privilege of taking title at this time, that all arrears must be paid in full before the 15th day of November or otherwise the privilege will be exercised.—Carried.

Moved by Coun. Ker—That the date of the Tax Sale for this year be set to take place on the 1st day of December.—Carried.

Moved by Coun. Brown—That the Secretary be instructed to report at the next meeting of the Council on the Seizures for arrears of taxes authorized at this time.—Carried.

Moved by Coun. Jackson—That the monthly statement as submitted, be ordered filed.—Carried.

Moved by Coun. Castle—That the

following accounts be ordered paid:—

| C. W. Ker, Council fees and mileage | 13.60 |
| W. Castle, ditto | 5.70 |
| E. B. Wahlstrom, ditto | 21.20 |

Moved by Coun. Jackson that the following Pay Sheets be ordered paid:

| | |
|--------|----------|
| No. 6 | \$109.00 |
| No. 7 | 210.50 |
| No. 8 | 31.00 |
| No. 9 | 185.75 |
| No. 10 | 130.00 |
| No. 11 | 185.10 |
| No. 12 | 216.75 |
| No. 13 | 132.00 |
| No. 14 | 258.25 |
| No. 15 | 180.00 |
| No. 16 | 178.00 |

Moved by Coun. Wahlstrom—That Secretary write Mr. W. L. McPeak, asking him to give an order on his 1932 road work in favor of his brother for work wrongly credited to him in 1931, amounting to \$28.50 and in the event of same not being received to deduct this amount and credit it to the latter.—Carried.

Moved by Coun. Jackson—That the report of Counsellor Ker and Brown in connection with the road on the S.E. 5-41-4 be accepted and that a survey be ordered to take in the work done.—Carried.

Moved by Coun. Jackson—That we do now adjourn.—Carried.

Springs and other shock-absorbing devices are eliminated from a French automobile that has its chassis suspended on rubber pads. The chassis consists of two deep-section tubes in which are carried four radius rods. Each rod is attached to a road wheel and bears against two rubber pads in the tube. All movement of the radius rods produced by road shocks is cushioned and absorbed by the pads, one of which takes the direct stresses and the other the rebound. Equally good suspension at all speeds elimination of steering-wheel shimmy through independent suspension of each wheel, and suspension without rebound or periods, are some of the car's advantages.—Popular Mechanics Magazine.

ALFALFA ENSILAGE

"Full bloom appears to be the best time to cut alfalfa for ensilage," is the conclusion advanced by the Division of Field Husbandry of the Dominion Experimental Farms, as a result of special studies made in this connection.

Wilting alfalfa for five hours improves the quality of ensilage and is recommended for this crop.

The addition of 25 per cent. of timothy to alfalfa seems to improve its quality as ensilage, while a mixture of corn and alfalfa produces an excellent ensilage.

The addition of molasses at the rate of 2 to 4 per cent and crude sugar at the rate of 1 to 2 per cent improves the quality of alfalfa ensilage.

The addition of salt does not appear to improve the quality of alfalfa ensilage, while the addition of lime resulted in such a poor quality of ensilage that the cows did not eat it.

Alfalfa cut in full bloom and placed in the silo without cutting produces a rotted material which is not fit for feed.

Storing alfalfa in the silo for periods varying from three to nine months, appears to have no adverse effect on its feeding quality.

Issued by Information Service Dept. of Agriculture, Ottawa, Ont.

Here and There

Popularity of Canadian apples abroad has notably increased, and last year apple exports to Europe from Western Canada reached a new high record of 1,174,690 boxes, as compared with 549,000 boxes in 1930. Fruit growers are anticipating an even larger crop this year.

R. Y. Danland, formerly Traveling Passenger Agent, Canadian Pacific Railway, Winnipeg, was appointed District Passenger Agent, Algoma District, North Bay, Ont., effective August 16th. Mr. Danland has had a long and successful career with the Company, and is now receiving congratulations on his most recent promotion.

Numbers of anglers returning through Ottawa and Montreal report having experienced exceedingly good bass fishing. This was the expression of a group from Cincinnati, Ohio, who recently visited the bass fishing waters of the Ottawa River, north of Montreal, according to A. O. Seymour, General Tourist Agent, Canadian Pacific Railway.

This is evidently the peak year with partridge, one would judge from the reports emanating from various parts of the Laurentian and Guelph districts of Quebec, according to A. O. Seymour, General Tourist Agent, Canadian Pacific Railway. In almost every locality partridge, as the ruffed grouse and Franklin's grouse are best known, are very plentiful. Most flocks hatched this year are nearly full grown.

New freight rates on live stock with low minimum weights to meet the competition of motor trucks in the transportation of animals to market have been put into effect by the Canadian Pacific and Canadian National Railways covering movement from stations within a radius of 150 miles of Toronto, and these were effective from August 15. The new rates are being tried out as an experiment, and it is expected they will result in a very substantial increase in the rail movement of cattle, sheep, and hogs.

One of the most interesting passengers arriving in Montreal by the Canadian Pacific 6th. Dock-est of Richmond on August 13 was "Miss England III", the world's fastest motor-boat. After the international races with Gar Wood's boat at Detroit, Kaye Don will take "Miss England III" to Toronto, where visitors at the Canadian National Exhibition will be able to see an attempt by the powerful vessel to lower her own or any other new world's record. The big speed boat was accompanied by R. E. Garner, senior mechanic, and "mate" to Kaye Don during the races.

Two hundred organizations affiliated with the governing body of the Canadian Chamber of Commerce, whose seventh annual convention will be held at Halifax, September 15-15, will send members to a pre- and post-convention sea cruise and land tour with the Clarke Steamship Co., the Dominion Atlantic and the Canadian Pacific Railways, scheduled to leave Montreal September 2 and return there September 19. The sea cruise will be on the S.S. New Northland, calling at Charlottetown, Sydney, St. Pierre-Miquelon, St. John's, Newfoundland, and Halifax, prior to the convention, and will cover the Maritime Provinces after it.

Cost of travel to Eastern Quebec, the Lower St. Lawrence and to resorts in the Maritime Provinces has been deflated this summer in a fare revolution that has never been equalled in the history of the railroads of Canada. This reduction works out at about one-fifth of the former fare and one-tenth for the round trip to any one of a score of glorious summer centres on Canada's unsurpassed Atlantic seaboard with proportionately reduced fares to many other destinations in eastern Quebec and the Maritime Provinces which are also in effect from stations in the province of Quebec, Montreal and west, and also in Ontario, Sudbury, Capreol, Windsor, Sarnia and east. This great concession by the railways of Canada is on offer during the month of August with a return limit of 21 days, excluding the date of sale. (662)

DEPRESSION ESTABLISHING ORANGE JUICE IN GERMANY

According to a recent report in the Sacramento, Calif. Bee, even the depression has some compensation.

Many an American has wondered how the average Germans, living on a diet of sausage, beer, rye bread and sauerkraut, could live to a ripe old age and be happy and healthy while so doing.

Either that diet or a restricted one, brought about by the unsettled economic conditions, has resulted in virtually an epidemic of stomach disorders in Germany, it is stated by T. Pearson Henderson, European trade commissioner of the California bureau of commerce.

Many Germans are now turning to fruit as a breakfast diet. Orange juice, practically unheard of in Germany, has made its appearance on bills of fare, replacing the standard continental breakfast of rolls and jelly.

We wonder if it is served in sterno to keep alive old memories.

GRANT FLEMING, M.D. — ASSOCIATE SECRETARY

PLAY FOR HEALTH

In prehistoric times, man was kept active by his efforts to secure food and defend himself from wild beasts. Later, most men were engaged in farming or other pursuits which called for bodily activity. At the present time an increasing number of people gain their livelihood through occupations which call for very little physical effort.

It is to be noticed, also, that those whose daily task makes but little demand upon them physically are, in general, the least active when away from their work. They seem to lack any desire for physical effort; it is either too hot or too cold, or they are too tired. They would ride rather than walk, and prefer to stand in a crowded car rather than walk a block or two.

From these observations it would appear that the person who enjoys physical activity, play or sport is the one who does a great deal of it. Like most other habits of life, we make a practice of physical exercise because of the pleasure or satisfaction which we get out of it.

Play means a moderate amount of exercise which is enjoyable, and at the same time helps to maintain good health. Play strengthens the muscles used, and the development is reflected in the whole body which works with the muscles. Play provides for a mental rest and a needed change of interest.

The normal child plays strenuously. Play for the child is a very important part of his education. It calls for motor co-ordination, provides new experiences and develops his capacity to get along with the other children.

Play should be regulated by age. The strenuous games of the young adult are not desirable forms of activity for the middle aged. When we arrive at middle age we need a form of play which calls for moderate activity that will prove safe and healthful.

The advice which can be offered to those who avoid physical effort as much as possible is that they are missing a real pleasure in life. The only way they can gain that pleasure, and at the same time keep themselves fit, is by seizing the opportunities which are offered to them. We may not be able to keep a horse to ride, or have the opportunity to swim or

play golf, but everyone can walk, we may walk part of the way or all the way to work, part of the lunch hour can be given to walking.

The exercise of the body is necessary for health. No one can exercise your body for you. It is important for your own health and happiness that you enjoy some form of physical activity or play—whatever you wish—and you must give it a fair trial.

Questions concerning Health, addressed to the Canadian Medical Association, 181 College St., Toronto, will be answered personally by letter.

NANKING BEGINS TO REORGANIZE SCHOOL SYSTEM

SHANGHAI—Impressed by the growing disorders in government universities, Chinese political leaders at Nanking have finally begun seriously a complete reorganization of the system of higher education, which involves dissolution of about half of the existing government universities and colleges and fundamental changes in the others. The work of reorganization is to be completed before the opening of the next school year in September.

The Nanking Government has dissolved Central University at Nanking using force to expel several hundred students who refused to obey official instructions to leave the premises during the summer holiday. At the same time the government university at Tsing-tao, although not under direct control of Nanking, was dissolved. The Government also has withheld subsidies from several government universities at Shanghai closed since the Sino-Japanese conflict, which are therefore not likely to reopen in the autumn.

The military authorities at Peiping and Canton have agreed to give Nanking educational officials a free hand in reorganizing the government universities in those sections. The Nanking Ministry of Education proposes to reduce the number of universities in Peiping by one-half and to close a number of higher schools in Canton.

Nanking admits that it can no longer support even half of the existing government universities. Teachers have not been paid for months at a time, and students have not received promised scholarships. It is not surprising that unpaid teachers and penniless students should become restless. Dissatisfied with internal political conditions which they hold responsible for their own plight, they have readily become agitators against the existing government.

By reorganizing the universities, Nanking educational officials hope to obtain funds to pay teachers and support students. But they will be compelled to reduce student personnel by one-half or more, and selection of students permitted to remain is certain to cause further protests.

STRESS IMPORTANCE PREACHING CHRIST

REV. MERRITT L. GREGG, M.A.,
DELIVERS FAREWELL
SERMON HERE

(In accordance with the Journal's established custom of giving its readers each week a sermon from an Edmonton pulpit, a representative attended Strathcona Baptist church Sunday evening and reported a farewell sermon by Rev. Merritt L. Gregg, M.A.)

As long as there are human hearts that feel, suffer, hope and aspire; Just so long will the work of preaching Christ be the most important work in the world, declared Rev. Merritt L. Gregg, M.A., in his farewell address Sunday evening at Strathcona Baptist church.

Mr. Gregg, who is leaving Edmonton shortly to become the minister of Winchester First Baptist church in greater Boston, Mass., took as the subject of his final sermon "What Think Ye of Christ."

"After nearly seven years of pastoral service in your midst, I feel profoundly moved to ask you this question: What think ye of Christ?" asked Mr. Gregg.

"Such questions as what think ye of ministers in general, or of me in particular, or what think ye of churches in general, or of the Baptist church in particular, or what think ye of Christianity, even, important as they are do not seem to me at this moment to be nearly as important as, what think ye of Christ," he said.

"There is no work in all the world as important as preaching Christ. The diffusion of knowledge, the wonderful triumphs of the press, the great achievements of invention, and the marvels of modern civilization, great as they are, cannot at all be compared in importance to that of introducing Christ to men and of inducing men to come to Christ."

"Our main business is to so present Christ to men that they will admit Him to their hearts, submit their wills to His will, and transmit His message and blessing to others. Happy if with our latest breath we may but gasp His name; preach Him to all and cry in death, 'Behold, behold the lamb!'"

"These certainly are days in which we must give Christ the pre-eminence in our thoughts. The question of our text is the greatest question of the ages. The world is weary of new tricks of thought that lead to naught; sick of quick remedies prescribed in vain for mortal pain; yet still above them all One Figure stands with outstretched hands."

"As long as there are human hearts that feel, and suffer, and hope, and aspire, just so long will the work of preaching Christ be the most important work in the world," asserted Mr. Gregg. "And to preach Him most effectively requires not only the consecration of all the ministers but also of all the members. It takes the whole church to give the whole Gospel to the whole world."

"Why should we preach Christ?" he asked. "Because He is the only hope for our souls and for our world. There is none other name under heaven given among men whereby we must be saved. Because the world today is still thinking too much about materialism as the hope of the world instead of thinking seriously enough of Him. Because as Christ's followers we are duty bound to be His faithful watchmen and sound out the stirring question of our text to all."

"To this the greatest of all service I entrust this church and all of its members co-operating with their new minister whoever he will be, to dedicate themselves with flaming devotion," said the preacher.

Mr. Gregg expressed his great appreciation not only to the members of Strathcona Baptist church, but also to members of the various other churches in this city, as well as to the public press and to many other organizations for all their courtesy and assistance to him in his ministry in this city.

Ten parts of alcohol and 90 parts of benzol, mixed together, will make a solution for removing dried printers' ink from furniture.

Some ants eat greasy food while others like sweets. Tartar emetic has been found the most effective poison for either kind. For grease-eating ants, mix tartar emetic, 1 part, with grease, 20 parts, and for those that like sweets, mix tartar emetic, 1 part with honey or sirup, 20 parts. Smear the bait on objects near the runways or other places where the ants are known to be. Care should be taken in spreading the mixture to see that only the ants can get it.

A Loan of Love

The buff-colored coupe swung around the corner on wheels that screamed in protest as rubber skidded on asphalt. Virginia Stevens gripped the steering wheel a little tighter and a dainty white-shod foot pressed the accelerator farther toward the floor board.

The main thoroughfare of Yazoo City, Mississippi, dazed in the midday sun before Virginia's eyes. The coupe flashed along the street for half its length, a buff-colored streak. The pop-pop pop-pop-pop of a motor cycle behind caused her to glance apprehensively over her shoulder.

She was racing a blue-coated police man down the street! A soft, exasperated murmur escaped her lips. Ever since the City had bought that motor cycle for Dan Powe, he had been taking his job as traffic cop too seriously. It would be the second fine she had paid in two weeks.

As she slowed down, Dan drew up beside her car on the motor cycle and motioned her over to the curb. He was grinning at her as she stopped.

"Well, Miss Virginia, you-all are getting to be the best customer Judge Prothro's got! Reckon the city's finances can stand it if you-all's pocket-book can!"

She smiled back at him weakly. She had been doing forty when he caught her.

"Seems that I'm getting too many of those cards," she told him. "I'll soon have a full deck, and I don't know what to do with them."

"Yewm, Miss Virginia. There ain't going to be no card this time. The judge's stopped me givin' them to out of towners. We had four that didn't come back last week. I reckon you-all will have to go down and pay your fine. Either that or put up a cash bond." Dan glanced away while his hand rested on the door of her car.

"How much will the bond be?" Virginia frowned.

"Let's see—the judge fined you twenty-five before—didn't he? That'll make it fifty dollars—"

"But I haven't—" Virginia bit her lip. The Stevens' finances no longer permitted her to carry even twenty-five dollars around in her bag. "I'll have to run across the street and see Jeff Willie," she told Dan. "I don't happen to have fifty dollars with me." Her eyes darted up and down the street, seeking a friend nearer than Jeff's law office across the street.

Larry Norwood, leaning against the door facing of the brick-and-concrete building that housed his service station and automobile agency, stood up straight and lounged across the sidewalk to her. He was tall, broad-shouldered, red-haired, blue-eyed, and well-dressed.

"May I help, Miss Virginia? I couldn't avoid overhearing," Larry lifted a white panama hat from his red hair.

Virginia's cool gray eyes rested briefly on him and his spotless white linen clothes.

"No, I think not. Thank you just

the same, Larry." She moved over to the farther side of the seat from him and opened the door. "You don't mind waiting till I run across the street and see Jeff, do you, Dan?"

"Virginia, Jeff won't be able to help you today?" Larry told her.

She turned her head to glance at him over her shoulder.

"Why?"

"Jeff's gone to Jackson. Left on the morning train."

"Oh!" It was rather a weak little exclamation. She moved back over behind the wheel to consider the situation further.

"You're right sure there's nothing I can do?" Larry half turned away.

"Not a thing, Larry." She stared straight ahead.

Larry was nice enough, but she couldn't accept a loan from him. He wasn't her kind. Not that the true, land-owning, Delta aristocracy was

TOMORROW OR THE NEXT DAY

They will be here. Who? My son, Maurice, and wife and my baby daughter. Why should I bother you about this personal matter? Well, it's news. Haven't seen my boy for eight years. He was just a slim kid with fairs on his face, now he declares he has real whiskers. He will have to show me. Eight years on a boy works a big change. I used to BOSS him. Now, I suppose he will try to boss me. Then he was a kid. Now he is married. I don't know what that combination has done for him. Another thing. I have never met his wife. Now I have five children. Another thing I am very much excited about is, that they are bringing my baby daughter, Elizabeth. Haven't seen her for two years. She has been studying to be a nurse. The Lord only knows what high-faluting ideas she may have. Reckon she won't stand for me eating tomatoes out of the can to save washing dishes. Lights out at 10 and up at 7. Won-

der if she will give me one late leave a week? I like to sit up and look at the moon one night a week. Suppose I will have to wash my feet at least once a week now. She is big hearted and I am hoping to beg off on some of these rigid requirements, part of the time. Maybe I can coax her to work a little down here at the office and I can sneak home and get into the jam. I still like a lot of jam with a little bread on it. The hardest thing to give up will be, drinking out of my saucer. You know, when a fellow has hatched a couple of years, he learns a lot of convenient habits. Oh! the three of them will be having some sweet time sprucing me up so as to appear in high society. I will just have to go slow and watch them, and see which spoon to use. I have a weakness when people pass me things, I can't ever seem to know when to say, "No thank you," especially when it's chicken. I never could say "no" to a chicken.

This may or may not be my last editorial. My son may say, "See here, dad, this nonsense you've been writing has got to stop. Write something, weighty or serious or let me do it." Don't I know that boy. He can write crasier stuff than I can. And that is saying a lot.

I must be saying — 30 — and sign off. I will be sticking around here for some time as I do not have a church to preach to, because that's all preachers have these days, as people don't come.

Everybody is invited to come into the office and meet my folks, as they will likely be here most of the time.

ED.

Gilt Edge Echoes

Marvin Bayard Plaxton and Margaret Jane Ford will be married Tuesday, August 30th.

Mr. Joe Pippin was taken to the hospital recently. We wish him better.

Monday, August 29th, saw the Plaxtonville School opened for the coming term.

Miss Edith Steel, who has been visiting Miss Lulu Plaxton, has returned to her home in Wainwright.

The Prior kiddies, who have been spending their holidays on the farm, have returned to Edmonton, in order to commence school.

Gilt Edge Service (English Church) — Services every other Sunday at 3 p.m. in Hall.

Miss Emilou Knox of Wainwright, spent the week end at the home of Miss Ione Plaxton.

We hear that Mr. Jack Prior is the owner of a fine truck nowadays. Good for Jackie!

Miss Margaret Livingston, who has been visiting Mrs. E. Wilhelm, has returned to Edmonton. She is teaching school again this year in the city.

Miss Verna Wilhelm of Gilt Edge, is now staying in Wainwright.

Britain announces further progress in building the All India Federation. After exhaustive study, a committee finds a way to meet the puzzle offered by the diverse financial arrangements between the states of British India and the Crown. Each of the 562 states, suggests the proposal shall be negotiated into the Federation on a separate basis. The plan is tedious, but hopeful. It is not so difficult in view of the use of the Federation undertaking — consolidation of more political units into a harmonious whole than was ever attempted.

RAINS HINDER HARVEST WORK OVER PRAIRIES

HEAVY MOISTURE NOW ONLY DANGER TO CROP THIS FALL

ALBERTA CUTTING HALF COMPLETED

MANITOBA & SASKATCHEWAN HARVESTING MORE THAN 50% FINISHED

WINNIPEG, Aug. 27.—Heavy rains all over the western region have delayed harvesting and threshing activities, and in practically all districts the rains were more of a hindrance than a benefit, as all crops are either cut or so near to maturity that the straw is too ripe to conduct moisture to the grain heads.

Rust has not been a factor in affecting the 1932 crop. The only possibility which exists today whereby this year's crop can be altered is through the medium of excessive rains and the damage they could do to the grade through sprouting and weathering.

Reports of widely-varying yields come from some localities and indications are that acreage yields in Alberta will exceed those of the other two grain-growing provinces, according to the final crop report of the agricultural department of the Canadian National Railway.

Threshing in Manitoba is fully half completed, and the outlook to date indicates a high quality wheat berry, with prospects of the average yield being in the neighborhood of 10 to 20 bushels. Coarse grains in the south and south central areas are for the most part disappointing, due to grasshopper damage, and some districts will require all their oats and barley for feeding and seed purposes. The Swan River Valley is this year harvesting one of the best crops in its history.

Nearly Completed.

In Southern Saskatchewan, wheat cutting is practically completed, except where fields are being left for combining, and when grain becomes sufficiently dry after the rain, combines and threshing machines will be operating. Wheat yields will be variable and flax and oat crops will have their outturn diminished by the recent dry spell. Northern areas in the provinces are hoping for warm weather, as, where crops are extremely heavy, ripening is slow and the fear of an early frost prevails.

Southern Alberta's wheat harvest is about 50 per cent complete, central and northern cropping areas report crop maturing rapidly with cutting well advanced and threshing to start immediately. No point report frost damage and total hail damage is small compared to last year.

The Peace River territory reports weather warm and dry, with harvesting general and no damage from any source. Yields will not be as heavy as last year.

Market strength week ago was responsible for increased arrivals at all western stock yards. Prices on heavy steady weight killing cattle held steady, but the plainer kinds met a drab reception. The hog division retains its strength and this condition will continue for some time.

Sligo Comments

Sunnyvale U.F.W.A. members report that they had a very pleasant joint meeting along with visiting members of the Browning local. The meeting was at the home of Mr. and Mrs. Postans and was held in an arbor made with poplar branches, a shady, airy place for these warm days.

We hear that Miss Westbrook of Phillips, will teach at Sligo School in the coming term.

Wheat cutting is almost finished around here, and threshing outfits will soon be humming in the fields.

Mrs. P. Monahan is out at the homestead here, cooking for the harvesters. Mrs. Monahan was one of the first pioneer women of this district the family later moving to the farm near town.

The Anglican Church service will be held in Sligo School on Sunday, September 4th. Rev. G. Wilson will take the service. Everyone welcome.

Mr. N. McTurk, who farms the S.W. of 19-45-4 was here recently, taking off his wheat crop with his new F. & W. binder.

ALTA. PACIFIC GRAIN COY. FORGING AHEAD

The Alberta Pacific elevator in this district is part of a system of 375 country elevators, coal sheds and flour warehouses located in principal grain growing areas throughout Alberta, Saskatchewan and Manitoba and operated by The Alberta Pacific Grain Company, Limited. Terminal elevators of the Company at Vancouver have a capacity of more than 5,000,000 bushels. In addition the "A.P." has terminal elevator connections at the Head of the Great Lakes, and office forces in Calgary, Winnipeg and Vancouver.

The Alberta Pacific and predecessor companies commenced business in 1901 in territory now part of the province of Alberta. Wheat growing in that area was then in its infancy. What was to develop into the "A.P." system was brought into being by John I. McFarland, then a young man yet to earn his reputation in the grain trade. His record of fair-dealing with all farmers and customers who came in contact with him earned for him an enviable reputation which he carried throughout his progress and successes in the Trade. The Company soon expanded to all the principal grain growing areas of Alberta, and into Saskatchewan and Manitoba.

At its inception the "A.P." management realized the great asset of a grain company was personal contact to the greatest possible degree with its customers. The door of the General Manager, John McFarland, was always open to any farmer to pass the time of day or to assist in the settlement of any difficulty being experienced in connection with the handling or marketing of grain.

In 1920 James R. Murray, who had built himself an enviable reputation as an executive of United Grain Growers Limited, was called upon to take over the General Management of the "A.P." following retirement of the Stewart interests from control of the Company. Mr. Murray came to the Company well-known to the agricultural population of the West and with a record of achievement in the extension and development of the U.G.G. throughout Alberta and Saskatchewan.

The policy of fair-dealing and direct contact with its thousands of customers, so well established by the founder of the "A.P." system, is that of the present management headed by Mr. Murray.

RELIGIOUS CENSUS MADE IN CANADA

ROMAN CATHOLICS SHOW GREATEST INCREASE, NUMBER TWO-FIFTHS

OTTAWA, Can.—Canada's population of 10,376,786, as established by the census of 1931, is made up of 4,088,546 Roman Catholics and 6,278,240 divided among more than a score of other denominations. In 1921 the totals respectively were 3,389,636 and 5,399,847. In the decade, therefore, Roman Catholics increased by 708,910 or 20.9 per cent, and non-Catholics by 879,393, or 16.3 per cent. Roman Catholics now comprise about two-fifths of the population. Nearly two-thirds of their strength lies in the province of Quebec, and three-quarters of it is in the provinces of Quebec and Ontario.

Strongest among the Protestant denominations is the United Church of Canada, with 2,016,697 followers. This denomination is the result of a union of the Methodist and Congregational churches and a large section of the Presbyterian church. Presbyterians, however, still number 870,482 followers. The Church of England in Canada is next to the United Church with 1,635,321, the Baptists have 443,229, the Lutherans 394,053, the Greek Catholics 186,587 and the Greek Orthodox 102,115. There are 155,606 Jews, an increase of 30,000 in the decade.

Also in the Dominion are 23,982 Confucians, 15,670 Buddhists, 18,418 Christian Scientists, 30,635 members of the Salvation Army, 21,947 Mormons, 4,445 Unitarians. Some 5,000 Canadians claimed themselves as Pagans, and 8,000 others declined to state their religious beliefs.

Roman Catholics are in the majority only in Quebec, but in three other provinces they are the strongest single denomination. In five provinces the United Church is first in numbers.

Canada has 372,900 more males than females, the census showed, the figures being 5,974,541 and 5,601,545 respectively. Quebec is the most

nearly balanced, with males holding the lead by 20,000, but in the Western provinces the numerical superiority of the masculine sex is very marked.

Clear Lake Waves

This week marks the break up of the camping season at Clear Lake. Many cottages have been boarded up and tents taken down.

The Billings family have returned to town after a fortnight at the lake. Most of their party were highly successful in getting the sun tan they so much desired.

Arm Lake has re-opened its school with an enrolment of eight and Miss Bowen is in charge.

The Gilt Edge ratepayers in Arm Lake S.D. have been heard to remark that they find it very difficult to understand the attitude of the Council in refusing their petition to have their taxes placed at the 25 mill rate, instead of being raised to 35 mills. Their petition was based on the grounds that this raise was unnecessary under existing circumstances.

MRS. W. J. BARTLETT.

THE HOME GARDEN

CANADIAN GARDEN SERVICE FOR 1932

Of the four seasons, spring alone is more important than the one just commencing, for the Canadian gardener. Not only at this time are the fruits of the earlier work harvested, but plants are prepared for the rigorous days of winter and even in the coldest districts of the Dominion there are certain flowers and vegetables to be put in now for an early start in 1933. Few people with any ground or window space at their disposal neglect the garden in April and May, but there are far too many who overlook the possibilities of fall work. By taking advantage of the September and October planting season it is possible to give many things a much earlier start over those set out in the spring and it is also possible to furnish a wealth of bloom from spring flowering bulbs to bridge the gap until the annuals commence to show their colors.

General Fall Work

Under the heading general work, will come grass seeding, the introduction and moving of practically all perennial flowers, the planting of rose bushes, shrubs, ornamental and fruit trees, vines and practically any other nursery stock which is usually set out early in the spring but which may also be planted at this time. There will also be a certain amount of pruning of early flowering shrubs, the removal of all the old raspberry canes and a general clearing out of two year wood from the climbing roses. Pea and bean vines past bearing, and any other garden refuse including weeds, should be dug under. This sort of thing contains a certain amount of fertilizer and it adds humus, a valuable ingredient in both heavy and light soil. Later on when the wind begins to blow from the north and frost has laid everything low but the hardy October and November blooming Chrysanthemums, some sort of winter protection in the form of leaves, straw mulch or snow, will have to be considered but it is too early to think about this just now.

Plant Bulbs Now

This is also the time to plant spring and winter flowering bulbs like the tulip, hyacinth, narcissus, daffodil and several others not so well known. These bulbs are growing rapidly in popularity in Canada and so they should because they are inexpensive and furnish wonderful blooms at a time when the flowers are very much appreciated. For outside they may be set out from now until the ground freezes and by using several types a succession of bloom from early May until late June can be obtained. Most of these bulbs, and especially the narcissus, daffodil, hyacinth, Chinese lily and early tulip will also bloom indoors from late November until April, if the bulbs are planted in special garden fibre or ordinary loam in pots. They must be started in some cold dark place, then gradually brought into full light and living room heat. If a few pots are planted each week from September until Christmas, a long succession of bloom will be obtained.

The threshing machines will all be humming in Gilt Edge this week, if weather conditions permit.

Mr. Stuart of town, shipped two cars of stock to the city last week.

PUBLIC NOTICE

WAINWRIGHT SCHOOL BOARD No. 1655

Re Grade XII

Notice is hereby given that the full Grade XII course will be taught in the Wainwright High School for the coming term (1932-33), under the tuition of three teachers, and all prospective students for this grade are requested to get in touch with Principal Thomson.

Tuition fees for outside district students, \$40.00 per term.

By Order,
Wainwright School Board,
G. T. STEEL, Sec.

PUBLIC NOTICE

WAINWRIGHT SCHOOL DISTRICT No. 1655

Re School Opening

Notice is hereby given that the School Term will commence September 1st, 1932 and all children reaching the age of Six (6) years before December 31st, and desirous of commencing school at the Fall Term, MUST BE REGISTERED with the school principal or with the undersigned before September 1st, 1932, (of which all parents and guardians are required to govern themselves accordingly.)

By Order,
Wainwright School Board,
G. T. STEEL, Sec.

Greenshield News

Greenshields United Church Service, (Rev. Huston, Minister)—Services held in Greenshields School house, as follows: Sunday School at 2.30 p.m., followed by preaching at 3.30 p.m.

We hear Mr. R. H. Vallean and sons began threshing oats last Friday and many more machines will soon be at work if good weather continues.

Miss Durrant and niece of Edmonton, old-time friends of Mr. and Mrs. R. M. Carl, motored down for a visit last week. While here they enjoyed a trip through the Buffalo Park and were well pleased with the Wainwright district. Miss Janet Carl accompanied them on the return trip and will resume her duties at the Royal Alexandra hospital.

Miss Eda Brooks visited with the Vallean family, while enroute to her home at Czar.

Heath Breezes

Miss K. McCreath of Edmonton, is
a visitor at the home of Mr. and Mrs.
E. L. B. McLeod and advises she is
enjoying the Heath Breezes during
her vacation.

Miss M. O'Keefe who has been
visiting with her father during her
vacations, left on Thursday after-
noon train for Winnipeg where she
is teaching for the coming term.

Rev. A. Bell and his wife and
family, who have been visiting at the
home of Mr. and Mrs. W. W. Avison,
left on Thursday for their home in
Tacoma, Wash.

W. L. Heures, agent for The N.
Bawly Elevator, advises repair work
and road grading is being done at
the elevator this week.

Mr. A. M. Jury, north of town, has
started threshing his crop of grain
and reports the grain is turning out
fair.

Mr. McLeod reports he has a fresh
stock of fruit in for preserving.

Mr. Axel Malmberg of Chauvin, is
a visitor in our district for the week
end.

GREAT CANADIAN WATERWAY OPENED

WELLAND CANAL JOINS TWO
LAKES AND TOOK YEARS IN
THE BUILDING

TORONTO, Canada.—When the
Lemoyne, 633 feet long and the largest
freight boat on the Great Lakes of
North America, steamed through the
new Welland Ship Canal with
575,000 bushels of wheat, a record-
breaking cargo, there was dedicated
to the shipping of the world an en-
gineering achievement which ranks
high in the world's list of great ac-
complishments. Formal opening by
the Governor-General of Canada was
an interesting feature of the Imperial
Economic Conference.

The Welland Ship Canal is a vital
link in a great inland transportation
system which links lake ports on
upper Superior with the Atlantic. It
unites Lake Erie and Lake Ontario
by a channel 25 miles long paralleling
the Niagara river ten miles distant,
and its length overcomes the drop of
327 feet which, on the river, brings
into existence the mighty Niagara
Falls. The work was undertaken by
the Federal Government nineteen
years ago, and has been pursued un-
der four Prime Ministers. The cost
was about \$27,000,000.

In construction of the canal the
Government has had in mind its
adaptation to what is called the St.
Lawrence Waterway project, for
which Canada and the United States
now have signed a treaty—subject,
however, to ratification by Parlia-
ment and Congress. The project in-
volves the elimination of rapids and
provision of channels for the largest
lake boats in the international sec-
tion of the St. Lawrence, and thus
it would be practicable for all but
the largest passenger liners to sail 2,000
miles inland by river and lake and
came to the head of Lake Superior.
In the proposed arrangement of
costs, Canada is given credit for ex-
penditures on the Welland Canal, and
the total remaining cost to the Do-
minion will be about \$8,000,000. The
province of Ontario, in return for
valuable power rights, is to con-
tribute some \$12,000,000.

The Welland Canal has had three
predecessors, the first opened in 1829
and each larger than the one preced-
ing it. The new Welland ranks with
Panama, Kiel, Suez, Manchester, and
North Sea canals as among the great
est in the world. It has seven service
locks with an average lift of 46 1/2
feet, and the guard lock is 1,380 feet,
longest and largest in existence. The
service locks are 840 feet long, built
to provide for ships of ever-increas-
ing length, and the canal has a nav-
igation depth of 25 feet, a width of
50 feet. The average trip through the
canal will take eight hours, although
it has been made in a little more than
six.

The canal has safeguards which are
new developments of engineering
skill. Accidents occasioned by incor-
rect timing of control operation or
improper use of any control are obvi-
ated by electrical units which will
operate only in the correct sequence.
Every gate, each of the 21 movable
bridges which cross the canal, every
lock, is operated electrically. Every
gate and the gate leaves are five
feet thick and vary in weight from

190 to 490 tons—is duplicated in case
of emergency. Construction involved
excavation of 9,070,000 cubic yards of
earth, the use of more than 90,000,
000 pounds of steel and 3,516,000
cubic yards of concrete.

Fabyan Briefs

Fabyan United Service (Rev. W.
Huston, Minister).—Sunday School
at 12:30. Preaching at 1:30.

Fabyan Catholic Church Services
will be held Sunday next at 11 a.m.

Mr. J. Allen of Spokane, is in this
vicinity for a few days, looking after
his farm interests.

Mr. J. Nordstrom was a business
visitor to Battleford last week.

Members Swanson and Chambers,
of the refinery, spent a couple of
days here the end of last week, look-
ing after the starting of refinery, in
the near future.

Mr. Bibby, of the Bibby Carriage,
is still hauling big tanks.

Mr. Fred Williams, of the Fabyan
Petroleum, accompanied by his fam-
ily and Mrs. R. E. Williams, motored
from Vancouver to see after the in-
terests of the Company.

Mac has installed a battery charger
so give us a trial.

Mr. Mayer and Mr. Allen motored
to Killam, Saturday last on business.

Grain cutting is coming to an end
and the threshing boys will be quite
busy in general next week.

The Fraser Boys motored to Wain-
wright on Thursday evening to meet
their mother who was going west on
No. 1, and enjoyed a 10 minute visit.
Mrs. Fraser has been touring all over
the east for the last couple of months
visiting relatives and friends.

Don't forget Mac has a large stock
of tires and tubes on hand; all sizes
and the price is right.

Our school received a new coat of
paint last week and it sure makes a
big difference in its appearance.

Miss MacDonald is here on a visit
with her sister, Mrs. L. Goodale.

The crop field for the Fabyan dis-
trict will average around 20 bushels
to the acre.

Mr. Frank Eyben is the proud
owner of a new Ford truck, which he
purchased from Dupre's garage.

Mr. G. Taylor will teach at the
Fabyan school this year. The term
commences September 5th.

Mr. King was a business tripper to
Wainwright last week.

Mr. George Gregson installed the
gas Saturday, for the boiler of the
refinery.

SOVIET HARVEST DATA

The official report "Account of Har-
vesting No. 2," issued by the Account-
ing Section of the Commissariat of
Agriculture, returns the total area
reaped up to July 15 as 5,967,000
hectares, or 7.1 per cent of the total
area sown. Compared with 1931, the
area reaped this year is nearly 1,000,
000 hectares less.

Of the reaped grain, 8.9 per cent
has been stacked and only 2 per cent
has been threshed.

The Ukraine comes in for severe
criticism for unsatisfactory progress.
The total reaped there is returned as
1,237,000 hectares against the 4,116,
000 hectares in the same period last
year.

The Soviet State grain farms, ac-
cording to the Pravda, July 21, are
behind with their deliveries of grain
to the State. Although the reaping
operations have covered a much larger
area than last year, deliveries are
four times smaller.

CROP REPORT BY BANK OF MONTREAL

General—Grain cutting is rapidly
nearing completion in Manitoba and
in Saskatchewan over 50 per cent of
the wheat has been cut. In Alberta
and Northern Saskatchewan opera-
tions have been delayed by fairly
general heavy rains. Threshing is

now underway in all three Provinces
and is general in Manitoba. In Que-
bec harvesting of grains is becoming
general with good yields indicated,
and later crops are progressing satis-
factorily. In Ontario grain threshing
is well underway and all crop pros-
pects generally are favourable. In
British Columbia heavy rains have
been beneficial to crops, though dam-
age is reported in some districts. Pros-
pects continue good. Details fol-
low:—

Prairie Provinces: Alberta—North-
eastern Area—Cutting is fairly gen-
eral. Early results give yields vary-
ing from 10 to 30 bushels; late sown
crops are only fair. In the south-
eastern area about 50 per cent
of the wheat is cut, with the average
yield estimated at 15 bushels of good
grade. Western Area—Heavy rains
have caused considerable heavy grain
to lodge. Some hail damage is re-
ported in the Lethbridge area. Sugar
beets are making good progress.
Saskatchewan—In the northern area
early threshing returns indicate good
average yields. No further important
damage is reported. Pastureage is
good. In the southern area threshing,
is underway in some districts; yields
generally are low except in the ex-
treme southwest. The grade is satis-
factory. Coarse grains are patchy.
The feed situation is improved over
that of last year. Rains have been
beneficial for stock grazing. Manitoba
—Early threshing returns indicate
good average wheat yields, ranging
from 8 bushels to 35 bushels per acre.
Coarse grains will give good yields
in some districts but much of the
crop is poor and will be used for
feed. The weather has been ideal for
harvesting.

Speed Boats To Compete Labor Day

One man against an empire! Imag-
ine contending single-handed against
a nation of millions and winning! Yet
that is what has happened in the
struggle for the world's speed crown
on the water. The man is Gar Wood
of Detroit. The nation is the mighty
British empire, where the govern-
ment is actively assisting British
sportsmen to gain and keep supremacy
of air, land and water.

At the cost of more than \$5,000,000
motors have been developed by gov-
ernment engineers, and with them
British sportsmen have won all three
motor-speed championships, on land
and in the air, writes Henry C. Foster
in Popular Mechanics Magazine.
But on the water the situation is
decidedly different. Despite the fact
that he receives absolutely no sup-
port from his own government Gar
Wood—for the time at least—again
wears the speed crown coveted by
an empire.

On Labor Day week-end, Sept. 2
and 4, Wood will again defend the
British International (or Harms-
worth) trophy, held by him since
1920, emblematic of the world's
championship in unlimited power. The
contest of this lone American sports-
man against the combined technical
genius and financial resources of im-
perial England, has brought the an-
nual defense of the trophy into the
forefront of world events.

Wood was also the first to drive a
boat at 100 miles an hour officially,
and he is acknowledged to be among
the best—some say the best—drivers
of tricky racing boats which are just
as dangerous as planes or racing mo-
tor cars, in the world. And this at
fifty-one years of age.

In his struggle with Great Britain
in September, he must meet the re-
doubtable Kaye Don, who is only
thirty-eight years of age, with long
experience as a driver of racing mo-
tor cars, and who has three times
driven "Miss England II" to beat him
in the rivalry between the nation and
the man. Gar Wood is handicapped
for powerful engines. Packard avi-
ation motors of 850 horsepower are
the biggest he can get in this coun-
try. His various "Miss America's"
since "Miss America V," have been
powerful with two of these. He speed-
ed them up, raised their compression
ratio, and now he has supercharged
them, until it is said they produce
about 1,600 horsepower.

With a total of 3,200 horsepower
he must race against a boat powered
by twin motors which were rated in
the Schneider Cup aviation races at
2,600 horsepower each.

Gar Wood's new defender, "Miss
America X" is between thirty-five
and thirty-eight feet in length, the
largest he has built for the contest

LOCAL NOTES

and nearly ten feet longer than "Miss
America IX." "Miss England III"
is thirty-five feet long with a beam
of nine and one-half feet. In her re-
cent tryouts, the British challenger
was reported unofficially to have
stepped at 131 miles an hour.

At lower speeds, "Miss America
IX" present holder of the world's
speed record of 111.72 miles an hour,
raises her bow very high, her stern
sinks deep, and the water washes
about in white swirls. Gar Wood at
such times stands nearly erect to
see over the high bow, motions to his
veteran racing companion, Orin
Johnson for more speed.

Wood and Johnson are beyond
question the most perfect, the most
closely synchronized team in the
history of motorboat racing.

Chicago banks learn that their re-
cent runs were the result of a deli-
cate plot. Evidence dropped by a
fleeing gang in Pontiac, Mich., gives
details of an unfounded whispering
campaign that rocked huge financial
concerns. Banks in other cities were
similarly assailed. The plotters are
Communists, trying to "bring on the
revolution." The criminals are being
hunted. They have no place in the
United States—whose liberty makes
possible their fiendish assault on its
lightly guarded institutions.

LOCAL NOTES

Mr. and Mrs. J. P. Carroll and
family, returned on Sunday, from
Vancouver, where they have been
visiting relatives.

Miss Eberly, who has been visit-
ing with Mr. and Mrs. Geo. Reid of
town, returned to her home in the
city, the first of last week.

Mr. and Mrs. Carsell and family,
of town, motored over to Pigeon Lake
Sunday, Mrs. Carsell remained for a
couple of weeks rest.

While in Calgary, the editor met
the manager of The York Hotel and
received and advt. from him. The
building is one of Calgary's new
hotels and is built on modern
methods. The service and accom-
modations are equal to many hotels
of considerable higher price.

*** We hope prices of grain will go
up. A few cents a bushel will pay
for the granaries to store your crop
and they will last you many years.
A fresh stock of granary lumber at
the Atlas Lumber Co. Ltd. Joe Welch.

Mr. and Mrs. O'Callaghan mo-
tored to Stettler last week end to
bring back their son, Eddie.

Mr. W. Shearer and family are
now in residence at the house recent-
ly vacated by Mr. Kyle.
*** The harvest season usually
brings a number of fires. Be sure
your property is well insured. See
Joe Welch.

APPLICATION.

Those sending children should apply to the Rev. Mother, Superior,
Blessed Sacrament Parish School, between 9 a.m. and 12 a.m. and
2 p.m. and 5 p.m., Monday September 5th.

Hints for the Household

By Betty Barclay

DISHES FOR LABOR DAY PICNICS

Picnics mean sandwiches. If you wish to make a hit at a picnic serve a sandwich that's different. Everyone is grateful to the Earl of Sandwich, who invented this delicacy so that he might not have to leave his game of cards, but one wishes he had invented more varieties sometimes. Well, here's a suggestion for an orange nut bread that makes a delicious sandwich base, spread with marmalade, jelly or a cream cheese and nut mixture. Best of all, it's new.

Orange Nut Bread

2 cups sifted flour
4 teaspoons baking powder
1 teaspoon salt
3/4 cup sugar
1 1/2 cup shortening
5/8 cup finely chopped nuts
1 egg
Orange juice
1 tablespoon orange marmalade
Sift dry ingredients together. Cut in shortening. Add nuts. Beat egg; pour in measuring cup; add enough

orange juice to make 2 3/4 cup. Combine with dry ingredients and add marmalade. Knead a few seconds on slightly floured board. Let stand in refrigerator or cool place 1/2 hour. Bake in loaf pan in moderate oven (350 degrees F.) until done—about 45 minutes. A little more orange juice will be needed with some flour to make the dough soft.

A picnic is really scarcely a picnic unless it includes a frozen dessert treat, such as this delicious and economical

Orange Sherbet

2 cups sugar
1 1/2 cups water
1 pint coffee cream (or evaporated milk)
1 1/2 cups orange juice
6 tablespoons lemon juice
2 teaspoons grated orange rind
Cook sugar and water 5 minutes. Cool. Add remaining ingredients. Freeze. Makes 2 quarts. Double amounts of ingredients to make 1 gallon.

A picnic on Labor Day—or any other day—without good coffee to drink is no picnic to brag about, for coffee is almost as much a part of Labor Day as parades. For some reason coffee is particularly refreshing in the open air. But it must be good coffee, not a weak and tepid mixture that is neither hot nor cold. Good coffee can be prepared the day before very simply. Brew it as usual, but use slightly more than the regular heaping tablespoons of coffee to the cup of water. As soon as the brewing is completed put it in an airtight container in the ice box to chill. Next day it can be packed with the lunch and served as fresh and fragrant as when it came from the stove, with no ice to dilute it.

Hot coffee prepared in advance should be put in the thermos jars as soon as it is brewed so that it will lose none of its qualities in the air. The cream and sugar can be mixed with it at home, if you prefer. Excellent hot coffee can be made right at the picnic grounds by the old-fashioned boiling method. But remember to use plenty of coffee and do not boil it long—let it steep a few minutes after it comes to a boil and there will be no bitterness.

RECIPES FOR TODAY

Those of you who prefer a cereal beverage to coffee or tea will find in the following recipes two new ways in which to use this product. By the way, the egg-nog and frosting are worth a trial by anyone:

Cereal Beverage Egg Nog

4 teaspoons cereal beverage product (instant form)
4 teaspoons sugar
4 eggs
1 quart milk

Combine ingredients and beat well with rotary egg beater. Pour over cracked ice. Serves 4.

A Novel Caramel Frosting

3 tablespoons cereal beverage product
3/4 cup boiling water
2 1/2 cups confectioners sugar
1 1/2 teaspoons butter

Dissolve cereal beverage product in boiling water. Add sugar and butter and beat until of right consistency to spread on cake.

BAKED ORANGE RELISH FOR MEAT

(Serves 6-8)

2 large oranges
3 or 4 slices canned pineapple
1 teaspoon cinnamon
8 whole cloves
1/2 teaspoon nutmeg
1/2 cup pineapple juice
1 1/2 cup sugar
1 tablespoon lemon juice

Slice oranges thin, using skin pulp. Cut up pineapple. Combine all ingredients and place in glass or earthen baking dish. Bake in moderate oven for 2 to 2 1/2 hours. This is a delicious relish with meats.

SLATS' DIARY

By Ross Farquhar

Friday—Ant Emmy has been a going to the Dr. for a long time because they are something wrong with 1 of her digest track the Dr. thinks so today he told her she should ought to go and have a Ely Ray pitcher tuk, but she said she wasn't a going to go to suchy foolish Xpense because she just had a pitcher tuk a couple of months ago.

Saturday—This evening I sat Jane if she had a date for sun 1 to take her to the ice cream social and she said What it to you so I up and walks away. I guess I shown her she can't trife with my effexions and got away with it.

Sunday—Mr. Huddle with keeps the book store at me this a.m. to go down to the depoe and meet a mother and law and bring her to his house as he had hurt his ankle and couldn't walk so good, and he said he wood give me a dime. I went down but she diddnt cum. when I went and told Mr. Huddle he give me 50 cents. he is a very kwever man.

Monday—The teacher at the new kid in are class what he new about the landing of the pilgrims and the new kid said he diddnt no nothing about it becuz they onley moved here four days ago and haddent began to take the paper yet. That's what I call ignorants.

Tuesday—Synthy Twitt lost her malleence cat yesterday and she told Jakes ma today that she was so very lone some that she wood have to by a new cat or either get married on acct. she is so very lone some. Synthy is a old made.

Wednesday—well I guess ma has got over her Mad spell with pa becuz to nite while we had Co. for the evning I herd her laff at his faverite Joak. That he often gets off.

Thursday—Ant Emmy says she wants to go to the Zoo as soon as the wether is nice becuz she wants to see 1 of them there Remotes they are trying so hard to controle now days. She has some laffable ideas it seems to me if any.

Undyed goods may be freed of rust stains by soaking the spot in a solution of chloride in water. As soon as the spot has vanished, rinse the material thoroughly in large quantities of clear water. This method should not be used on colored goods, as they are likely to become bleached.

PREFERENTIAL TARIFF FOR CANADIAN WHEAT FAVORED BY MURRAY

James R. Murray, General Manager of the Alberta Pacific Grain Company, Limited, has issued the following statement favoring preferential tariffs on wheat from the Dominion entering the Motherland:

"It is ridiculous to suggest, as Press despatches from Ottawa during the past few days indicate, that the entire Grain Trade of Canada and grain growers of the West consider that a preferential tariff in favor of Canadian Wheat in the British market would be of no advantage to Canada. Confidential briefs, indicating such a view, may have been submitted to the Dominion Government by the authorized spokesmen of various bodies, but it is absurd to assume there is no contrary opinion among those they purport to represent. The official representations made by the Grain Trade spokesmen, Wheat Pools and Provincial Governments express the views of all farmers in the West.

"Almost everyone can agree that a quota system would be cumbersome and useless, but a preferential tariff is a different matter. Personally, I believe the free entry of Canadian wheat into the British market, by far the biggest wheat importing market in the world, with a duty against non-Empire wheat, would be a distinct advantage in marketing our Canadian crop and over a period of years would assist in obtaining better prices for our Western grain growers. Considering the almost prohibitive tariffs against all wheat imports now in effect in all European countries, I believe there is much to be gained and nothing lost by such a preference.

"It seems to me unfortunate, particularly at this time, when wheat growers in Western Canada need all the assistance and encouragement they can get that spokesmen, who at best supposedly represent less than half of the farmers in the West, should take the position that a preferential tariff in favor of our wheat in the British market is a matter of supreme indifference to them. What ever the views of our Western farmers may have been on this matter fifteen or twenty years ago, I do not believe they are today indifferent to the advantages that would accrue to them from such a preference. I believe that if the Dominion Government can, in exchange for tariff concessions on British manufactures entering Canada, secure a preferential tariff in favor of Canadian wheat entering the British market, they will accomplish something of great benefit to the whole of Canada and will earn the thanks of the majority of farmers and business men in Western Canada."

prime," he continues. "No one wants any drinking man to be at the mercy of machinery, and no one wants to be at the mercy of any machine in the hands of a drinking man."

The question was narrowed down to the automobile manufacturer's own home with the statement that "here in Detroit, for example, many of our really best people are for prohibition—many more, I may say, than two years ago."

He illustrated his stand by citing several instances of conversation with friends. This was among the most striking:

"I told a famous writer who had criticized me and said he would have bought a Ford station wagon if I had not insisted on sobriety in our factories, that when I saw him willing to intrust his wife and children to a drinking chauffeur, I might consider trusting our works to a drinking staff."

Paying as We Spend

So excessive has been the abuse of the borrowing power of public bodies in Canada that serious consideration should be given to a general adoption of the radically different "pay-as-you-go" policy.

In both private and public business it is the presently accepted theory that expenditures should be divided into two classes:

1. Current expenditures on account of current operations, which should be met, in the case of a private individual or company, out of the year's income and, in the case of a government, out of taxation and whatever additional revenues are obtained from natural resources, etc.

2. Capital expenditures, representing investments of a more or less permanent nature. To provide the money for such expenditures it is usual to borrow. In the case of the private company, new capital may be obtained by increasing the amount of partnership capital by selling stock, or by borrowing on the company's promise to pay by issuing bonds which will in time be paid off, ostensibly out of the earnings provided through the new investment. In the case of a public body bonds will be sold and these will be paid for during the life of improvement undertaken.

When a private company borrows to meet deficits or for other current purposes it is taking a step in the direction of bankruptcy. When a government borrows to meet deficits caused by excessive expenditures or a deficiency of tax revenues it is taking the first step toward default.

Most well-managed private businesses are constantly "ploughing back" earnings in reality building up fixed or working capital by making

permanent investments out of profits. This strengthens the financial position of the company. But seldom does a public body make capital expenditures out of current funds. In fact, in the present state of public opinion such a practice would be regarded as taxing the citizens of today for the benefits to be enjoyed largely by the citizens of tomorrow.

BID YOU EVER STOP TO THINK

By Edson R. Waite Shawnee, Oklahoma

You should praise your home city and boost with all your might.

A woman often blames her husband for things that go wrong about the family budget. Often it is because the wife is a little smarter than the husband. Sometimes she fears that the husband is inclined to attach too little importance to the household problems. She finds when her husband buys he uses poor judgement. He seldom investigates prices and quality and, when given a list of things needed, pays little attention and comes home with a lot of "just as good" articles that the wife did not want. On the other hand, the wife is a careful buyer. She reads the newspaper advertisements carefully. She keeps posted on prices and quality and when she does shop she buys the best at less and keeps within the family budget. When it comes to buying for the home, the average wife knows more about how to shop and save than the majority of the husbands will ever know.

Stock prices move aggressively into higher levels. The demand for bonds grows in spite of stiffening

prices. Grain quotations ascend. The stock market reflects rather than forecasts good news in industry and commerce. Reports from many districts of the United States show the sure tiltale of better days—the putting of substantial numbers of men to work. The reopening factories are those that turn out a wide variety of products. The bright suggestion of economic revival discloses the fact that in industry the laws of politeness have altered. It is no longer vulgar to whistle.

Eliminating expensive carrier ships a folding raft for landing airplanes has been tested in the Mediterranean. It consists of a ramp ad raft made of wood and canvas that can be unfolded and run out from the stern of warship or merchant vessel. The surface, as large as the deck of airplane carriers, is strong enough to withstand the landing shock of the heaviest plane in the British navy.

FORD REAFFIRMS BELIEF IN DRY LAW EFFICACY

DRINKING HAS NO PLACE IN MACHINE AGE, SAYS MOTOR MANUFACTURER

NEW YORK—Mr. Henry Ford reaffirms in a recent issue of Collier's, his belief in the efficiency of prohibition and his doubt that it will be modified or repealed.

"I know from daily observation for over 40 years," he says at one point, "that there is not 1 per cent of the drinking done in the United States that was done formerly."

At the same time the Detroit motor magnate admits the necessity for "a renewed campaign for temperance" but warns that every temperance campaign in the last 100 years has "issued in a demand for prohibition."

"If efforts succeed in again making prohibition a big, insistent, national question," he predicts, in reference to the wet movement, "then we shall see 100 years of national conscience rolled into one indignant act that shall silence the question for all time."

The campaign against liquor is world-wide in scope, he says, and the United States has the advantage that "the law is on the side of sobriety and not on the side of liquor."

Mr. Ford was emphatic in his belief that "liquor and gasoline do not go together" and that drinking has no place in the machine age. "I have never known a drinking man, even a moderate one—if there is such a thing—who has stood the test of

That's That

A Loan of Love

(Continued from page 3)

"There," she stopped on the stairs. "The couple moved away from the curb and out into the street."

From the corner of her eye in a swift glance, she saw Larry snatching back to the doorway of Norwood Motors, Inc. It was funny, Larry did something to her. Yet he didn't belong at all, would never belong to the Delta's best. His father had been a renter and share cropper on her father's plantation, when she was a sprightly-legged girl. That had marked him. Renters and share croppers didn't get to be members of Delta society, not for three or four generations anyway.

Judge Prothro, elderly, dignified, frowned at her severely across his desk. "Back again, Virginia?" He glanced questioning at Dan.

"She was doing forty on the main drag, judge," Dan told him.

"And of course, he would be watching for me!" She picked up the telephone from the judge's desk.

"Were you?" the judge demanded.

"Was I what?" She smiled at the judge.

"Doing forty."

"I wasn't noticing, but I suppose I was," she admitted. "Operator, I want Jim Stevens at the Riverview Plantation," she went on to the telephone transmitter.

WHY PAY MORE?

THE WILSON FLY PAD CO., Hamilton, Ont.

"Young lady, it will cost you fifty dollars," the judge passed sentence upon her.

"Yes, that's what Dan said. The city must be getting in a bad way financially."

The Negro servant who answered the phone at her home, reported that Jim, her brother, had joined a fishing party just before noon, and probably wouldn't home until dark. She set the telephone back on the desk and turned to Judge Prothro.

"Jim won't be home until late," she told the judge. "Could—could you wait until he comes, for my fine?"

"Why yes, we could, but you'd have to stay here, I'm afraid."

"You mean I'd be a prisoner during that time?"

"That's about what I mean. I did not make the laws, you know, Virginia."

"But what am I to do?" she glanced at the judge helplessly.

She had friends, of course, from whom she could borrow fifty dollars, but the slenderness of the Stevens' finances was becoming too well-known already, without her advertising it by trying to borrow. There were only three or four people in Yassoo City whom she could possibly ask for a loan of fifty dollars. Two of these, she knew, were no more likely to have it than she was. Jeff was out of town. That left only Tom Linwood. She called Tom's office. Tom was out of town, too, for the afternoon, his stenographer said.

The judge offered her a comfortable chair and went on with his work. Dan strolled back out into the street, and she heard his motor cycle roar away. The moments were insufferably long. She couldn't stay there all the afternoon, she told herself. Some one was sure to come in and get the details of her story. It might even get into the paper. She picked up the phone again and called Larry Norwood's office.

"Larry, perhaps you could help me after all," she told him. "Could you—would you lend me fifty dollars till to-morrow?"

"Why, surely, Virginia. Where are you now?" There was something in her voice that told her he suspected where she was.

"I'm at Judge Prothro's office."

"I'll be right down, Virginia."

She had not quite stifled all of her pride when he walked into the office, but she was glad to see him. He was so clean and capable. She felt that everything would be all right now that he was there. She watched him silently as he wrote a check and passed it across the desk to the judge. There was something about taking money from him that stung her a little.

She paused uncertainly at the door.

"Thank you Larry, ever so much. I'll drive in to-morrow and bring the money to you. I'm sorry to have bothered you."

"It was no trouble at all, Virginia," his fine eyes gazed steadily into hers. Why was it, she wondered, that a boy like Larry, a cropper's son, had such eyes? "Drive out and see me some time, Larry," she said, and then could have bitten her tongue out for having spoken the words. Wasn't it bad enough that she had accepted a loan from him without asking him to call?

His face lighted up like a child's before a Christmas tree.

"Thank you, Virginia. I'm going to do that—sure!"

Her face was fiery red, she knew, as she went on out to her car.

If the couple had come into town like a lion, it certainly left like a lamb, as though it were as thoroughly chastened and subdued in spirit as the young lady who sat at its wheel.

Twilight was fast closing into darkness when Jim came. Virginia heard him at the back of the house asking Aunt Sally for supper before he came on out to the porch where she sat. In the dim darkness she heard, rather than saw, him when he opened the door and stepped out upon the porch.

"Any luck?" she asked.

"A little. We caught a few river trout." He moved over closer to her. She could see that his eyes were studying the skies and the stars that were beginning to dot them. "We're certainly needing rain on that last forty of cotton we planted," he went on.

"I—I was fined for speeding again today, Jim."

"What?" His sharp intake of breath was plainly audible. "You're going to have to slow down, Virginia. We simply can't afford fines. I've told you before, how things were with us. You must be careful."

"It really wasn't my fault today, Jim. I looked carefully when I turned the corner. I couldn't see Dan anywhere on the street. He must have had his motor cycle parked between two cars at the curb."

Jim slumped down into a chair beside her.

"How did you pay your fine?" he wanted to know, and she could feel the tenseness with which he stiffened in his chair. "Virginia, you—you didn't—"

"No, I didn't write a check, Jim," she laughed nervously. "Are—are things as bad as that with us?"

"I'm afraid they are, sis. The bank warned me last week they wouldn't honor one dollar of overdraft nor loan me another red cent!"

"But Jim, what are we to do then? It's a month yet till—"

"Yes, I know it's a month till we begin ginning. I was in town yesterday and made arrangements with Larry Norwood to furnish the hands with groceries till then." He felt in his pocket for a cigarette. The flare of his lighter disclosed a frown on his face.

"I didn't know that Larry—I thought he was in the automobile business."

"Oh, Larry's spreading out! He owns the controlling interest in the Welles Produce Company, and he's going to make a thousand bales on the land he rented from Keith. Larry's making plenty of money."

They sat in silence for a moment. Jim's cigarette glowed in the darkness of the porch.

"How did you pay your fine?" His mind came back to that question again.

"I borrowed the money from Larry, Jim."

Jim was on his feet like a steel spring released from its tension.

"Bis! You didn't do that! A personal loan?"

Virginia considered the star-dotted heavens.

"I tried to see Jeff Willis and Tom Linwood first, Jim. They were both out of town. What else could I do? I couldn't sit there in Judge Prothro's office all afternoon. I told Larry I'd drive in to-morrow and pay him."

"How much was it?" His voice told her he was hoping it was small.

"Fifty dollars."

"It might just as well be fifty thousand as far as we're concerned. I'll have to drive in to-morrow and ask him to wait until we start ginning."

"No, you won't!" It was Virginia's turn to rise. The code of the Delta's did not permit passing the consequences of her own acts onto another's shoulders. "I'll see him myself and ask him to wait."

"Don't be absurd, sis! Of course you can't do that!"

"Can't I? I borrowed the money from him—didn't I?"

Larry Norwood sat in his office at Norwood Motors, Inc., and tried to concentrate his thought on the past due accounts before him rather than a slim, brown-haired beauty of a girl. He had been in love with Virginia Stevens for years, and where had all his thoughts of her brought him? She would as soon think of marrying one of the servants of Riverview Plantation as himself. Having been reared there, he understood the code of the Delta's upper crust almost as well as they did themselves.

Yet, he couldn't stop thinking of her. It was her face with its finely

chiseled features and cool gray eyes that he saw now, rather than the list of past due accounts which Gerald Saunders, bookkeeper for Norwood Motors, had placed on his desk.

Perhaps it was her invitation to him to drive out and see her that made his thoughts of her so persistent that morning. She hadn't meant anything by that, he argued with himself. She was just trying to make the gulf between them seem a little less wide because he had done a friendly act for her.

Saunders came in at the door behind him.

"There are two or three accounts on the list, Mr. Norwood, that I think I should call your attention to," Saunders said. "The Stevens account, particularly, is getting in bad shape."

Larry frowned.

"They seem to be buying all of their gas and oil here in addition to the repair bill on both cars," Saunders went on. "Their account is running close to one hundred dollars a month and there hasn't been anything paid on it in five months. Besides that, Miss Virginia was in a few days ago talking to our shop foreman about a complete overhaul job on her car." Saunders's tone implied that he thought it was high time Larry did something about the Stevens account.

To be Concluded

SOMETHING WRONG HERE

A tariff change at Ottawa affecting the duty on farm implement parts is causing considerable adverse criticism throughout the west, apparently with good cause.

In the fall of 1930 the government raised the duty on farm implements and parts thereof. Through the efforts of some western members of parliament the tariff increase on farm implement repair parts was postponed to March 31, 1932. During last winter and spring several members of parliament took the matter up with the government, asking to have imposition of the higher rates postponed for a further year.

Hansard reports give the evidence in which, in reply to a question, the minister of finance gave assurance that this matter would be dealt with by order-in-council pending the bringing down of the budget. When the budget came down the minister of finance is reported by Hansard to have said in his budget speech: "With one exception no tariff amendments are therefore proposed. The exception relates to repair parts for farm implements, for which the special rate granted to March 31, 1932, will be further extended to March 31, 1933."

But on May 25, the department of national revenue issued a memorandum in which it was stated that the lower tariff would apply only to parts made by the maker of the machine for which intended, and this became effective immediately.

In brief this interpretation of the promise made by the minister of finance classes all repair parts made by other than the maker of the machine as "pirate" parts, not entitled to the lower duty. Just how the ruling will affect Western Canada can be understood when it is stated that the greater part of farm implement repair parts sold in the west are made by independent manufacturers, their business with western farmers running into several hundred thousand dollars yearly.

Add to this the further fact that repair parts sold by the machine manufacturers are generally much more expensive than those supplied by the independents, while at the same time seldom of better quality, and it will be seen that aside from the increased duty, the repair bills of western farmers will be greatly increased through their being forced to buy the more expensive parts.

It appears to the Herald that Ottawa authorities have blundered here. Manufacturers of agricultural machinery in Canada are well enough

protected by the tariff against foreign agricultural machinery. There would seem to be no good reason why the government should undertake to fight their battles for them with independent concerns making repair parts. There is every good reason why the government should make the buying of repair parts as easy as possible for the farmers in these times of hard sledding in the agricultural industry.—Calgary Herald.

Reducing production costs and fire risk, a method of making sound film or "talkies" on paper has been tested successfully in Germany. Any number of copies can be made from the original celluloid film, a photographic copy of which serves to make electrodes of the voice tracings. The record is printed in rows, side by side, on paper strips. These rows form a continuous record. Since four rows are printed on each strip, a 1,000-foot strip contains 4,000 feet of record, sufficient for a forty-eight-minute performance. The method is applicable also to radio broadcasting.

Here and There

Lord Nigel Douglas-Hamilton, in charge of a party of thirty English Public School boys, who will arrive in Montreal August 5, under his supervision, claims that there is no better "finishing school" than a tour of this nature.

First wheat harvesting reports in the Canadian West were reported by the agricultural department of the Canadian Pacific Railway from Winnipeg, July 23, with barley and rye going under the knife in the Alda and Estevan subdivisions of the railway. The wheat was harvested in southern Manitoba.

August will see the season in the Canadian Rockies at its peak with the Prince of Wales Trophy, already bringing in golf entries from far and near, scheduled for August 15-20 and coinciding with this event the Indian Days' celebration, August 19-21, which will be attended by Stoney, Crees and Kootenays.

Conducting five French and five Swiss professional men from Paris, France, to this continent, Nicolas Racz, of the Paris office of the Canadian Pacific Railway, is visiting Toronto, Niagara Falls, Detroit, Chicago, Washington, New York, Albany, Montreal, Quebec, and returning to Europe on the Empress of Britain, August 5.

Mystery cruises, so popular out of New York, Southampton and other great ports, were ushered in on the British Columbia coast with the sailing of the coastal liner Princess Patricia, of the Canadian Pacific coastal service, to an unknown destination under sealed orders, recently. Close to 200 passengers were attracted by the trip.

Julius, red, succulent buffalo steaks grilled to a nicety, greeted the Australian and New Zealand delegates to the Ottawa Imperial Conference as they entered the dining car of their special train over the Canadian Pacific Railway out of Vancouver recently. The Aussies were particularly impressed by this menu and pronounced it better than any beef they had ever eaten.

Governor Franklin Delano Roosevelt of New York, Democratic Nominee for the Presidency, has for years been one of New Brunswick's most distinguished non-resident visitors, members of his family annually spending several weeks at the Roosevelt summer home at Campobello, one of the Grand Manan Island Group in Passamaquoddy Bay. He first came there as a mere lad back in 1895.

Answering the call of Mt. Asinbolina, Matterhorn of the Canadian Rockies, old and new members of the Trail Riders' Association, gathered at Banff July 25th with the objective of climbing the long ascent to the roof of the world and the Alpine country of the Great Divide in the vicinity of the Mountain. The ride required five days in all. Twenty American girls, summering at the Lake Windermere ranch, were among those taking part. (860)

ALL THE NEWS FROM THE TOWN AND DISTRICT

BORN.—To Mr. and Mrs. A. Wright, of Wainwright, at the Wainwright municipal hospital, on August 28th, a son.

BORN.—To Mr. and Mrs. E. Simmons, of Irma, at the Wainwright municipal hospital, on August 29th, a son.

BORN.—To Mr. and Mrs. J. Nicholson, of Wainwright, at the Wainwright municipal hospital, on August 29th, a daughter.

BORN.—To Mr. and Mrs. E. Patterson, of Greenshield, at the Wainwright municipal hospital, on August 30th, a daughter.

Mrs. J. Murry is in the local hospital, receiving medical treatment.

Have you seen the new Princess Pat toilet line at the Standard Pharmacy?

Mr. and Mrs. Scott of Olds, are here visiting Mrs. Scott's sister, Mrs. W. Stuart for a few days. Their daughter Gladys, will return home with them.

Miss Grace Welch left Sunday for Thorhild, where she is to take up her duties as principal of a two-room school.

Miss Mabel Prosser and her brother Wallace, returned Sunday from Ontario, where they have been visiting relatives and friends.

Miss Muriel Wittmann is returning to Auburndale this week to commence her duties as teacher of Autumn Leaf School, again.

Reginald Denny, as an Englishman, is a knockout in "Those Three French Girls" at the theatre this week.

Mrs. Robt. Davis has been in town a few days visiting her sister, Miss Margaret Spence.

Mr. and Mrs. Summers and family of Kerrobert, Sask., are here visiting Mr. and Mrs. Huston for a few days.

Armstrong's Ltd. Mens Harvest Boots. A fine range priced \$1.95 to \$2.95.

Mr. Fred Redgewell spent the week end visiting friends in Tofield.

Mrs. MacNamara and son, visited her sister, Mrs. Ray Greer in town for a few days.

Mr. J. Summers, of the Pool Elevator at Phillips, spent a few days in town last week.

Miss Gene Secord of Tofield returns to town this week to resume her duties as high school assistant.

Mr. McLeod and wife, accompanied by two of their grandchildren, were visitors at the home of their son, who lives at Oxford, over Sunday.

Mr. McLeod homesteaded the farm that his son, Ira, now lives on.

MRS. C. ALEXANDER GUEST OF FRIENDS AT TEA & SHOWER PARTY

Mrs. Frank Seabrooks entertained at tea and a shower, for Mrs. C. Alexander, (the new bride) on Wednesday afternoon last. The house was prettily decorated with white streamers and wedding bells, and a profusion of flowers.

The school children of Sydenham rendered an appropriate program of musical selections, recitations and dialogues, also Miss Mary Drummond of Edmonton played several piano solos, Miss Lola Mabey, acting announcer.

All was greatly enjoyed by the audience, which numbered over fifty people.

After the programme, everybody moved out on the lawn, where six little "Daisy-Wreathed" bridesmaids presented the bride with some gorgeous bouquets of flowers, and were kept busy for a long time handing the bride the many beautiful and useful presents, after which a dainty and sumptuous lunch was served. Mrs. W. McKay presided at the tea table, while the hostess and Mrs. Stadshaug, Miss Lola Mabey and Miss E. Merrick helped to serve all the good things to eat.

The bride and Mrs. Seabrooks were both given an ovation. "For They are Jolly Good Fellows."

Mr. Reuben Ott is out of the hospital, after an operation for appendicitis.

Be sure to visit the Standard Pharmacy this week and see the full line of "Seventeen" toilet goods.

Mr. and Mrs. Leo O'Reilly and Mr. Goulet and Rita, motored to Edmonton last week end, to see Mrs. Goulet who is in the hospital there.

Mr. Underwood of Toronto, of the Bethwain Oil, has been in town for the last few days and has had men boring Bethwain No. 2. The oil is high grade and is being sold to the Farmer's Refinery.

Roy Berry has had a gang of men building a derrick for the Hargal Oil Company, at the British Wainwright, and this well is to be pumped. The Hargal program includes the reconditioning of the various British Petroleum wells which they will bring into production this season.

Mr. Dave Mathers, of Edson, was in town last week visiting his family who have recently returned from a vacation in Saskatchewan.

Mr. and Mrs. Jack Sutherland left on the train on Sunday last, for a trip to Boston, Mass.

Mr. and Mrs. Washburn motored to Daysland on Sunday, to bring back their daughter, Patricia, who has been visiting Dorothy Pybus.

Hear Cliff Edwards with his ukulele, physical and vocal contortions, in "Those Three French Girls."

Roy and Helen Tohmie, who have been holidaying with relatives in Ontario for the past two months, returned home Sunday evening.

Mr. and Mrs. Wm. Knowles returned last week end, from a motor trip to Banff.

Two more Sisters of the Order of St. Joseph, arrived from Kingston, last week.

The Atlas Lumber Co., is unloading several cars of lumber, suitable for granary material, this week.

Mrs. Thoreson and family, arrived from Cardston last week, to join her husband, here.

Mrs. MacKenzie and family of Edmonton, are here this week, visiting Mr. and Mrs. Jack Stinert.

Miss Page, matron at the local hospital, leaves this week for a holiday at her home, north of Edmonton.

Miss Violet Taylor, who has been visiting friends at Killam, returned home on Monday.

Mrs. Jack Lewis returned home last week from Jasper Park, where she has been enjoying a vacation.

Miss Jessie Arkwright, who has been visiting her sister for the past six weeks, returned from Edmonton recently.

Mr. Frazer was a week end visitor in the city, returning home Sunday.

Mrs. Jessie Pawling, who has been spending a vacation with friends at St. Catherine's Ont., returned to her home here, Monday night.

On Friday, September 9th, St. Thomas's Anglican Church is putting on a Congregational Social at the Masonic Hall, at 8 p.m. The A.Y.F.A. have consented to look after a programme of music and fun. Of course, there will be the usual good things to eat.

Miss Mary G. Drummond, A.T.C.M. L.A.B. Associate Teacher of Miss. Le Saunier Piano School, Edmonton, has just returned to her home, after visiting with Mr. and Mrs. J. Ruste, for a month. This talented, energetic and industrious young lady, who is still in her "teen age," was successful in winning the Open Piano Solo event in McDougall Auditorium, during the last session of the Alberta Musical Festival, and was awarded the Calgary Women's Musical Club cup.

Mr. Victor Hedlund, living north of Heath, was seriously injured the first of last week. He was binding, when the team became frightened and ran away, throwing him off the binder and dislocating his knee.

Walking is very difficult, as the knee is in a cast. We hope he will have a speedy recovery.

George Groomsmith as a useless action of an English earl, in "Those Three French Girls," is really amusing.

Fifi D'Orsay, in "Those Three French Girls," shown at the theatre this week, offers you many pleasant moments.

The quarterly meeting of the W.A. of the United Church, will be held at the home of Mrs. F. Fish on Tuesday September 6th.

Mr. Arthur Harden reports having tried out the new Imperial Oil Distillate and finds it the best yet and takes less of it.

At Armstrong's Ltd. New Corticelli, Full Fashioned Silk Hosiery, in newest shades, per pair \$1.00.

Leonard Briscoe of Toronto, Ont., who, during the past month has been visiting relatives in town, returned to his home on Thursday last.

On Thursday evening last a delightful time was had by some twenty couples, when the Town Girls Softball Team held a weiner roast at Mott Lake.

We are sorry to learn that Mrs. Roy Carl has been on the sick list for some length of time. We wish her a speedy recovery.

Mr. R. Maughan, Sr., was taken by surprise by a large number of friends Sunday, among them being Mr. and Mrs. McBeth and family. The afternoon was passed with music and singing, at the close of which, a delicious dinner was served by his granddaughter, Mrs. Hobbs.

Dr. and Mrs. Wallace motored to the city last week to bring back their sons who have been visiting there.

This week will see the teachers back in their customary places again.

Among visitors to the city last week end, were Mr. Anderson, Tory and Dr. Wiley.

PLEASANT AFTERNOON FOR RECENT BRIDE

On Monday, August 22nd, a very pleasant afternoon was spent at the home of Mrs. W. A. Kinghorn, who kindly lent her house to Mrs. C. A. MacDonald and Miss Kathleen Kinghorn for a surprise shower given for Mrs. Stanley Vallesau.

The guests, to the number of about thirty, were entertained by guessing competitions, after which a beautifully decorated basket containing many gifts was presented to the bride by Miss Helene Boyd and Master Claude MacDonald.

A delightful lunch was served by the two hostesses and the guests were further entertained by the Misses Edna and Vera Hausfeld, who gave selections of Hawaiian music and songs.

At the conclusion, all joined in singing, "For She's a Jolly Good Fellow," and in giving three hearty cheers for the hostesses.
